- F.Y.I. - Do you know that all your activities use water?
- PLEASE RESPOND BY (date assignment is due) \_\_\_\_\_
- INFORMATION NEEDED FOR ACTIVITY: Water Facts Sheet
- PLEASE CREATE A CHART OF YOUR WATER USAGE FOR JUST ONE DAY AND CALCULATE THE TOTAL

#### COMMENTS:

List your activities and the amounts of water used for them. (Don't forget you put on clean jeans, sneakers, tee shirts; you rode a bike, roller-bladed, ate breakfast). Add up the totals of all class members. How much water did the class use? What is the per student average? How does it compare to the national average? (See Water Facts Sheet.)

What did you learn? (Hint: What message is found in the telephone number on the letterhead?)
