Delayed Processing of DEP Applications and Other Requests

The following was issued by the DEP:

Please be advised that a large number of DEP staff are required to take intermittent furlough days throughout the month of July. The Bureau of Licensing and Registrations remains committed to assisting the public and will continue to process applications and other requests to the best of our ability.

However, please note there may be unavoidable delays in our responses to emails and phone calls.

You may continue to contact staff through the main phone numbers, and we will respond to your inquiry as soon as possible. With staff already working remotely due to the COVID-19 pandemic, the shared bureau emails offer the most efficient means for a response.

- Pesticides (609) 984-6507

- Applications LRU@dep.nj.gov

When contacting the Bureau, it is important that you provide an e-mail address, phone number, and any relevant identifier, such as license number, ID, or invoice number in question.

We apologize in advance for any inconvenience. We appreciate your patience during this difficult time.

Jersey Water Works Membership Meeting Set For July 20 on Zoom

The fifth annual [Jersey Water Works Membership Meeting](#) is being held on July 20 via Zoom.

We're excited to bring together members who have been involved for years, members who are ramping up their involvement, and soon-to-be members as we explore the long-term solutions that are needed to achieve strong infrastructure for a healthy New Jersey.

The meeting will feature:

- State leaders' COVID-19 response stories and ideas for getting ahead of the next crisis;
- A sneak peek of [Jersey WaterCheck](#) and a chance to shape its creation and launch;
- Hot-off-the-press member updates ([email us](#) to add yours to the list!); and
- Top highlights from JWW working committees.

I hope to see you there. If you're planning to attend, you can [register here](#).

We need your help! In order to help make this event successful, can you please promote the virtual Membership Meeting by sharing it throughout your networks on social media, in your newsletters and on your website's calendars

Please let me know; we'd like to list our promotional partners on our website. If your organization has a water infrastructure-related update, project, or event, let me know that as well so we can include it in our slide deck.

To make this easy, please see the attached resource sheet that you can download to use sample social media posts and graphics, and template newsletter/email content.

Please let me know if you have any questions about the upcoming Membership Meeting or how to use the communications resources package.

Thanks in advance for your time,
Julia McBride, Program Assistance
