

## Association of Environmental Authorities of New Jersey

Tuesday, June 25, 2019

### One Water Award nominations are now OPEN

The One Water Awards honor initiatives that show innovative approaches to sustainable, integrated, and inclusive water resource management practices.

One Water is the belief that all water - stormwater, drinking water, wastewater - has value that can be unlocked to solve the state's water challenges.

The One Water Awards are sponsored by an array of organizations in the state, including AEA, Jersey Water Works, the American Water Works Association New Jersey section, the New Jersey American Water Resources Association, and the New Jersey Water Environment Association (NJWEA).

With awards given in Public, Private, Non-Profit, and Academic categories, the best in the state can only be honored with YOUR help. We need your nominations!

Nominations due by Sept. 30. Read the guidelines and [submit your nomination here!](#)

### Introduction to Water / Wastewater Operations course being offered in Bergen County

Northwest Bergen County Utilities Authority is planning to offer an Introduction to Water / Wastewater Operations course at its facility in Bergen County beginning in September. The intent is to make it possible for students to avoid the trip to Rutgers, especially during the evening rush.

For more information, see [this detailed notice from Rutgers](#) or visit [this direct link](#), which includes details on how to register.

## A Call For Proposals

### AEA Annual Meeting

November 19-20  
Ballys, Atlantic City

AEA is seeking proposals for presenters, presentations, panels, and other features. See our forms below for details.
