DLGS Offers Shared Service Assistance

As we mobilize in response to COVID-19, it is increasingly clear that our economy and budgets have been affected in unprecedented ways.

Once we emerge from the immediate crisis, as you weigh your recovery options, we strongly encourage you to incorporate shared services and regionalization into your thoughts about how to continue to provide integrated, efficient, and high-quality local services.

DLGS Local Assistance Bureau (LAB), in collaboration with the State's Shared Services Czars, stand ready to provide shared services and consolidation assistance to towns considering shared service and regionalization opportunities.

To setup a LAB consultation, contact: localassistance@dca.nj.gov or call (609) 292-6858. For Shared Services inquiries, contact: sharedservices@nj.gov.

Cybersecurity Warning: Phishing Financial Campaign Alert!

The NJCCIC (The New Jersey Cybersecurity & Communications Integration Cell) has observed multiple phishing campaigns consistent with open source reporting in which cyber-criminals **impersonate popular financial institutions**, such as Wells Fargo and Bank of America, and target customers to steal account credentials and information.

For example, one campaign claims to be a security alert from Wells Fargo and contains an ICS calendar attachment titled "update your security keys.ics" that, if clicked, directs the user to a SharePoint page and then a spoofed banking website that prompts for account credentials, PIN email address and password, and account number.

If entered, they will be sent to the threat actors in the background.

Other phishing examples include emails containing HTML attachments that direct

to a spoofed Google Docs webpage to download wire transfer confirmation information, requests to click on links to update email addresses, offers of \$1,000 bonuses to click on links to provide comments or feedback, personal information needed to complete a pending wire transfer payment, and confirmation of beneficiary information for outstanding funds.

Please be careful while on the internet.

If this type of email makes it through the spam filters into your inbox:

- Do not click on any links
 - Do not reply
 - Please follow procedures to report this types of emails.
- Click on the Phishing Alert Button.

Think Before You Click Once again, it is more imperative than ever these days!

Thank you advance for you cooperation.
