

## Association of Environmental Authorities of New Jersey

Friday, March 6, 2020

### Final Notes on Our Spring Conference, Set For Next Week in A.C.

*Utility Management Conference  
March 10-11, 2020  
Caesars, Atlantic City*

#### **Conference Attendees:**

We are all concerned about how to proceed given the coronavirus outbreak. Caesar's tells us they have ramped up on cleaning and sanitizing in bathrooms and other public areas. In addition, they have taken on additional staff for cleaning and are providing special training to address the situation.

We will be asking all who attend or plan to attend the conference next week to take extra care about personal hygiene. If you are sick, please stay home and rest. If you feel sick while at the conference, please go home to rest.

At the conference, avoid shaking hands. Make ample use of the hand sanitizer we will make available. Heed the CDC guidelines to mitigate transmission of illness - we will be posting them throughout the conference area.

Tuesday - 4 w/ww credits (10B 1w/3ww)

Wednesday - 3 w/ww credits

Join AEA for our utility management conference. Our focus is Becoming Champions of Change. You will hear presentations on the WaterNow Alliance, affordability, business in the Garden State, The Memory Game and more. The conference will conclude with the presentation of Wave awards and distribution of certificates to the EPDA Cohort at the luncheon on March 11. Registration information is available below.

# aka Coronavirus

The 2019 Novel Coronavirus was identified as the cause of an outbreak of respiratory illness, referred to as COVID-19. It was first detected in Wuhan, China on Dec. 12, 2019. Because this disease already has begun to spread worldwide, it is important that water sector professionals keep informed on the attributions of this virus and any measures needed to protect both workers and public health, in general.

With that in mind, [here is a complete guide](#) on everything you need to know as a water professional.

Tap into Resilience is a one of a kind, two-day event for local decision makers committed to sustainability, affordability, and innovation. Join mayors, council members, city officials, utility management, and national water thought leaders for a unique gathering to explore resilient solutions for your community.

This is a conference for everyone interested in innovative, sustainable, and affordable water strategies. If you are a water decision maker, manager or utility staff, water innovator, consultant, financial advisor, bond counsel, or water industry association, this is the water event you will not want to miss.
